01.ABOUT US

FXRANEX was granted a License by the IFSC (International Financial Service Commission) under the regulations of the Belize Government.

The Licensee must meet strict policy and procedural guidelines in the operations of its brokerage business, such as:

- 1 Licensee is required to segregate the customer funds.
- 2 Licensee is required to maintain physical possession or control of fully paid and excess margin securities carried for customers.
- 3 The Licensee must give priority to customer's orders and shall transmit instructions in the order of receipt.
- 4 The Licensee shall promptly address any complaints from its customers and do everything possible to satisfy them so as to avoid any damage to the reputation of Belize as a well-regulated jurisdiction.
- 5 The Licensee shall file by fax or other electronic means by the tenth of each month the calculations and evidence of the Licensee's:
 - ▶ Paid up capital and unimpaired capital, compliance with margin requirements as of the last business day of the previous month and an income statement for the previous month;
 - ▶ The number, volume, and value of all trades executed and such other information as the IFSC deems necessary; and
 - ▶ Any other information required by the IFSC.
- 6 The Licensee shall submit to the IFSC a manual of operating procedure, including liquidity and money laundering prevention controls.
- 7 The Licensee shall at all times keep deposited as "reserved funds" with a bank or other licensed financial institution in Belize.

International Financial Service Commission (IFSC) Belize
 The IFSC is the principal financial services regulator of the government of Belize. Belize is an active member of the Caribbean Financial Task Force (CFATF) and subscribes to its core principles to eradicate money laundering and to foster stability of the global financial system. The Commission is developing a statutory Code of Conduct for international financial services providers, to ensure compliance with internationally-accepted best practises by all services providers.

EFTA (EXCLUSIVE FOREX TRADING ACCOUNT)

The first ever in history “No Margin Call” in MT4 trading accounts FOREX with lucrative monthly Welcome Bonus for the depositor. Multi-level introducing broker module for “Members get Members” program.

Investors and traders around the world have accepted the forex market is driven by greed and fear. These two mood states are primitive human instincts which, until now, we've struggled to accurately quantify. We've come up with the unique concept to control human greed and fear by limit the leverage to 1:1 on EFTA account trading. By limiting the leverage, we as the broker have the capability to bridge the clients order into the liquidity provider with higher leverage and volume to produce a monthly welcome bonus and lucrative “Members get Members” Affiliate Program.

Introducing the EFTA concept “No Margin Call Trading Account” in FXRANEX having it is own history and valuable research result from the old EGTA product under RGCX Trading Corporation since 2010. This unique EFTA will be a solution for the forlorn trader that faces big losses in the forex trading industry for time to time. Ushers in a new era of trading and is a new wave in forex trading all over the world today and in years to come. We're the pioneer in providing the first “No Margin Call Trading Concept” in Mt4 for traders to gain profits monthly without having anxiety/paranoia from the thought of losses from trading. The real fact is that the majority of retail traders lose and this unique concept created and introduced by FXRANEX into the market place of forex trading will be a savior and solution for all traders worldwide. The EFTA product is a uniquely perceived concept supported by a sophisticated system created and established by FXRANEX so as to present an account which can result in a winning environment for clients and entities over the long term.

INTRODUCING ZULUTRADE

Founded in 2006, ZuluTrade has quickly become a leading mirror trading provider. Differently from all the traditional trading software, where users have to build the systems or actually trade by themselves, ZuluTrade allows you to choose between hundreds of independent traders who feed trading signals to your account.

ZuluTrade

ZuluTrade radically changes the concept of trading, setting you free from many of the issues related to this activity, like analysing charts, mastering fundamental or technical analysis and letting emotions bias your investment decisions. Forget all of this. Just choose the strategy you like the most, sit back and watch ZuluTrade do the job for you.

WHAT CAN ZULUTRADE DO FOR YOU?

- ZuluTrade feeds trading signals from professional traders directly into your trading account
- The FXRANEX trading account gives you instant, light fast execution with no requotes
- Plenty of user opinions and statistical information will help you find the right signal providers
- Explore the full range of ZuluTrade's capabilities with a free 30-day trial version

- » Subscription to one of the trading signals

After all the conditions are met, accounts will be synchronized and all further trading operations of a signals provider will appear on your account almost instantly. There will be no contracts or any other paperwork. It is not even necessary for a subscriber and a provider to work on the same trade server.

On the other hand, you can become a signals provider yourself and earn additional profit. Register as a signals provider and specify your trading account to allow any trader to subscribe to your signals. After one testing month, profitable providers will become available for paid subscription and you will be able to increase your profit.
